

Teen Screen for 2007/08

The North Iowa Initiative with the Columbia Teen Screen is scheduled to be highlighted by the University of Columbia in its national newsletter.

The results from last year have been posted for review. From the end of the year debriefing came the clear message to continue this project.

This year our initiative will again be carried out in partnership with host of community agencies. Mark Dodd from Prairie Ridge will serve as the lead coordinator this year. We anticipate and expansion of the school sites interested in participating.

The Mason City Noon Rotary graciously donated funds to help with this and the Survivor of Suicide Conference.

The Center has served on a state wide suicide prevention task force that has developed a five year strategic plan. This plan has been posted for further review.
